

## KIRI PARK PROJECTS: 2009 GROWERS PROJECT OPEN

**October 2008**

On the 22 October 2008, Environmental Forest Farms Management Limited was issued a Product Ruling No. 2008/70 from the Australian Tax Office. The project is now opened to investors until the 30 June 2009 unless sold out before hand.

We expect a strong demand for our Kiri Park Project 2009 Growers this year due to the changes in the ATO Product Rules so we urge intending Investors to get their applications in early.

There are a number of attractive finance packages for the 2009 Growers Project which include:

- 12 month interest free finance
- 5 year principal and interest finance
- 8 year principal and interest finance

Once again, the 2009 Growers Project offers investors the outstanding tax benefits guaranteed by its ATO Product Ruling.

The Kiri Park Projects: 2009 Growers is the next installment in the successful Kiri Park Project which is considered to be one of Australia's leading Paulownia timber managed investment schemes.

For more information about how the 2009 Growers Project can benefit you, please contact our National Sales Manager Paul Stanley on 08 9227 8422 or 0424 656 346.
